

Name: _____

Date: _____

Entry #: _____

Important Vocabulary: Forces and Interactions Unit
PUT THIS IN YOUR BINDER TO KEEP!!!

Vocabulary Word	DEFINITION and Examples
Electric Force	Attractive or repulsive force exerted by all charged objects on each other.
Conductor	Material that allows electrons to move easily; material that transfers heat easily.
Electric Field	Surrounds every electric charge and exerts forces on other electric charges.
Gravitational Force	Force that every object exerts on every other object; depends on the masses of the objects and the distance between them.
Insulator	Material that does not allow electrons to move easily.
Magnetic Field	Surrounds a magnet and exerts a magnetic force on other magnets.
Magnetosphere	Region of space affected by Earth's magnetic field.
