

Dear Parent or Guardian:

My name is Miss Erica McGaughey and this year I will be your child's Science teacher. I am looking forward to this school year, the opportunity to get to know you and your child, and am eager to watch your student progress in their science knowledge. I hope that you and your child will feel comfortable to contact me whenever you have a question or concern. With your help at home I am sure that this year will be a success. I would just like to take this time to thank you for being involved in your child's education and look forward to partnering with you to continuing that education.

Please ask your child to see their Science Syllabus. The syllabus contains information about grading, needed materials, and **Rules/Consequences**. I will also be covering this information in class. However, as a parent it is important that you are also aware of the rules in my classroom and that you go over the syllabus with your child. Your student also received a lab safety contract that **MUST** be signed for them to complete lab activities. **Please ask to see this, review it with your student, and return by the date provided on the contract.**

As previously stated do not hesitate to contact me if you have any questions or concerns. The easiest way to reach me is by e-mail; I will e-mail you back as soon as possible. Again thank you and I am looking forward to an AWESOME school year.

Sincerely,

Ms. Erica McGaughey
SCMS Science
